

FinishStrong

Community Mask Donations

Ford Motor Company is encouraging Americans to [#FinishStrong](#)—to pull together and protect each other to help save lives in the months ahead until COVID-19 vaccines become more widely available.

As the company’s philanthropic arm, Ford Fund is leading Ford’s effort to donate 120 million masks to at-risk communities across the United States by mid-2021.

Since August, we’ve distributed more than 98 million medical-grade masks to nonprofit organizations, state and local officials, first responders, schools, community groups and Ford dealerships in all 50 states.

Mask distribution days

Ford Fund is hosting public mask distribution days across the U.S., inviting residents to stop by a participating Ford dealership or nonprofit partner distribution site to pick up 20 disposable face masks at no cost while supplies last.
