Regarding your Ford Ranger

Owner: Rogers

1481-3

220580

November 28, 2022

Dear Ford Ranger Owner,

Based on records provided by DDM Marketing, it has come to my attention that you could be the registered owner of a 2018-2022 Ford Ranger truck. I have helped thousands of consumers with serious problems and defects in their motor vehicles. Recently I have received complaints related to defects in the 2018-2022 Ford Ranger, including, but not limited to, transmission problems including violent jerking when stopping, lurching, loss of power and gear shift problems, fuel contamination leaking into engine oil, engine problems, defective check engine light, brake pedal failure resulting in crashes, electrical issues and unintended acceleration. If your Ford truck has had any of these problems, or if you have been experiencing other serious issues with your vehicle, then my firm may be able to help you.

You have rights, remedies and entitlements provided by State and Federal laws that may entitle you to a manufacturer's buyback or a cash settlement. When I accept a client for representation, I methodically pursue numerous claims to provide my clients with the best potential recovery. I also strive to resolve your matter as soon as possible, and many of my matters are resolved in as little as ninety days.

Additionally, my law firm will not charge you any attorneys' fees unless I obtain a recovery for you. In many cases the law allows you to recover attorneys' fees and costs from the manufacturer. In any event, if there is no recovery, then you will not be responsible for any attorneys' fees.

FOR IMMEDIATE ANSWERS: Call us Toll Free At 1-866-533-1979 to speak to one of my friendly lemon law rights counselors to have all your questions answered for free, including whether you qualify for a buy back or cash compensation for your lemon vehicle – at no out-of-pocket cost to you!

Sincerely,

Craig A. Kahn, Esq.
